

## OUR PARTNERS

CIPG has established links to different sorts of stakeholders. At the national level, the Centre has provided research and consultancy services to various governmental bodies, particularly the National Research Council and Ministry of Science & Technology.

CIPG has also established close contacts with other state research and development institutions, universities, the industry sector, as well as prominent civil society organisations working in media/ICT, development, and human rights across Indonesia and press/mass media.

At the international level, the Centre works closely in research collaboration with international organisations located in Europe and North America.

**Researching innovation**  
**Advancing policy**  
**Improving governance**

## WHO WE ARE

Centre for Innovation Policy and Governance (CIPG) is a **research-based advisory group** which aspires to excel in the area of science, technology, innovation, and governance.

Founded in **July 2010**, CIPG is considered to be among the first advisory groups in Indonesia with a keen interest in building Indonesian research capacities across many sectors.

Based in **Jakarta – Indonesia**, several CIPG's associates are also affiliated with research centres in the United Kingdom. With well-experienced research staff, CIPG is becoming the leading advisory group combining sub-national and international organisations.

## OUR EXPERTISE

CIPG has four main activities, namely [1] Research, [2] Consultancy-Advisory, [3] Capacity Building and [4] Policy Intervention; not only in Indonesia, but also in the context of South East Asia.

### CREAME

CIPG provides capacity building in form of well-tailored research methodology trainings.

### FORESIGHT

Using Foresight as a research tool is one of our many expertise. As a process, it goes beyond conventional data collection and analysis.

### ENGAGEMENT

CIPG believes that quality research should always be combined with passionate engagement. We value the commitment to not only produce sound evidence, but also to create useful resources for policymakers and the public.

## OUR RESEARCH AREAS

CIPG's current priority research is set across three areas, namely:

## OUR RESEARCH STREAMS

### Information and social change

- Unboxing television in contemporary Indonesia
- Assessing media policy and governance in Indonesia through the lens of citizens' rights
- Political parties' communication strategy on television
- Mapping cybersecurity landscape in Indonesia
